

St Benedict

Feast: July 11

Patronage: Europe.

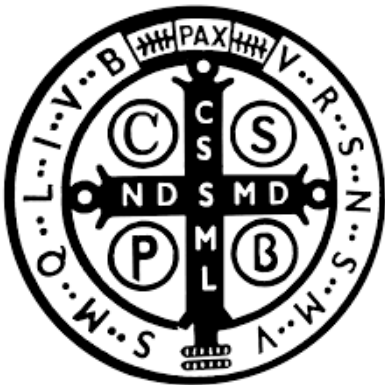

Kidney Disease.

Monastics. Poisoning.

Schoolchildren

He who labors as he prays lifts his heart to God with his hands.

-Benedict of Nursia

A few of the monks started feeling envious of the Saint's goodness and got upset about his strict rules. They wanted to make him sick by putting poison in his wine. But St. Benedict prayed over his cup, and it broke right away, without him drinking any poison.
